

Product Specification [Calcium Ag-Lime]

Ag-Lime is a high quality screened limestone (Calcium Carbonate-CaCO₃). It has a high calcium content and high neutralising value. It is the ideal high yielding product for improving soil quality and increasing agricultural yield. Agri-Lime is a proven limestone product supplied from Grange's Kelhead Quarry situated close to the M74 and A75 allowing fast delivery across Southern Scotland and Northern England

Declarations

| | Minimum Requirements | Percentage |
|---------------------------|------------------------|------------|
| Calcium Carbonate Content | | 91.9 |
| Neutralising Value | 50 | 53.3 |
| Fineness | 100% Passing 5mm | 100 |
| | 95-100% Passing 3.35mm | 100 |
| | >20% Passing 0.15mm | 24 |
